

EXCELLENCE IN ENGINEERING...

Lipco Engineering was founded in 1980 and operates from our 6000 sq. ft. premises in Ringwood, supplying precision machined components to the Aerospace, Defence, Formula One and Electronics industries.

The company, have invested in modern CNC machines and has a highly skilled and dedicated workforce providing a both competitive and comprehensive service of the highest quality to meet with your specific requirements.

Service

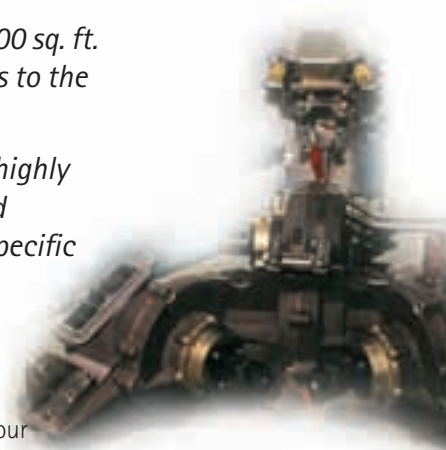

Lipco Engineering's main priority is total customer satisfaction. Over a number of years we have established a close working relationship with our customers, working as a team, forming partnership agreements which allow us to understand and respond to our customers requirements more efficiently.

Programming

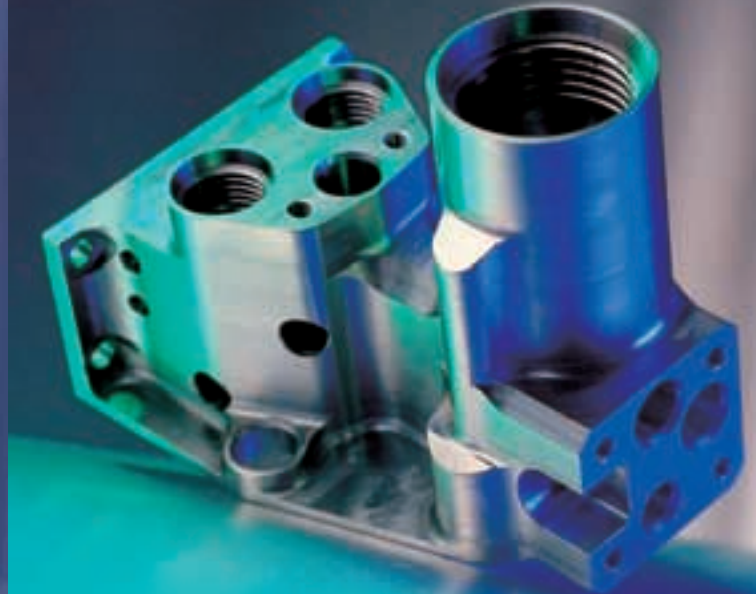

Our sophisticated off-line programming systems allow us to program or read customer 2D or 3D files and download with DNC links both to our CNC Machine Shop and Inspection CMM, thus minimising both time and cost.

Quality

As a BSI registered company since 1988 we offer a complete Quality Management System in accordance with BS EN ISO 9002. In addition to our standard inspection procedures we are able to offer the option of Statistical Process control (SPC), Just In Time (JIT), Kanban and Direct Line Feed Systems, reducing customers inspection time and cost.

BS EN 9002: 1994 Approval No. Q5655

IN ENGINEERING

Plant List

MACHINE SHOP

CAD/CAM: Delcam Powermill 3D
Delcam Powershape 3D
Delcam Powerinspect 3D
Vero Visi - Cam
Cadlink - CDL
Mazak - MDT

Milling: 3 x Bridgeport VMC 600 Machining Centre - *with 4th Axis*
1 x Bridgeport VMC 500 Machining Centre
2 x Bridgeport Interact 1 Mk2 - *with 4th Axis*
1 x Bridgeport Interact 1 Mk2 - *with Indexer*
3 x Bridgeport Turret Mills - *with D.R.O.*

Turning: 2 x Mazak Quickturn 15 CNC
2 x Mazak Quickturn 250 CNC
2 x Colchester Triumph 2000
1 x Colchester Master

FITTING SHOP

Large assembly area for special purpose machines, detailed fitting and sub-assemblies.

ANCILLARIES

1 x Vacuum Blast Unit

DRILLS

Pedestal, Bench and Radial.

INSPECTION

Full facilities to **BS EN ISO9002**
2 x Co-ordinate Measuring Machines:
Mitoyoya B700 [manual floating] - *Delcam Powerinspect*
Brown & Sharpe Mistral 07. 07.05 [031A] CNC
With Rayo Kit C Opt.2

MATERIAL PROCUREMENT

A full release procedure for the purchase of all material, castings, forgings, extrusion etc. Bonded Stores and Quarantine Area.

TREATMENTS

A full release procedure for all treatments. Anodising, conversion coating, metals spraying, painting, electro and electroless plating, including nickel, chrome cadmium, gold and silver.
